## FOUNDATION YEAR PROGRAM

Preparing you for successful university studies at top English-language universities throughout the world.

I.I.H.E.M

International Institute  
for Higher Education  
in Morocco

## WHAT IS THE IIHEM FOUNDATION YEAR PROGRAM?

The IIHEM Foundation Year Program is a special two-semester program that prepares you for successful university studies at international English-language universities. In addition to intensive English language preparation courses, the program familiarizes you with the educational approaches used at these universities so that you are fully prepared for the methodologies and intellectual rigor of their classes. The preparatory undergraduate courses in the program are transferable to most universities, allowing you to save valuable time and to significantly reduce the cost of your international education.

IIHEM has leveraged over thirty years of experience in international education to design the Foundation Year Program so that it fully prepares you to study abroad. The contents of the program are based on the concrete knowledge and experience that it has gained from its own students and alumni, many of whom choose to pursue advanced studies abroad. Through its network of international universities that spans North America, Europe, the Middle East, South Asia and the Far East, IIHEM opens many and varied opportunities for its students to attend international universities.

**After successfully completing the Program, you will receive a Foundation Year Certificate and an official transcript of your courses and grades. You will also have a guaranteed admission to IIHEM.**

## PROGRAM CURRICULUM

The curriculum of the Foundation Year Program covers:

### Intensive English Language Preparation

The English language courses are meant to raise your speaking, reading and writing skills in the English language to the level required for you to pursue international studies.

### Transferable Foundation Academic Courses

The academic courses cover basic college mathematics, computer literacy, and the foundation courses of business management. The academic courses are foundation courses in all business programs are transferable to most international universities.

### Intensive Preparation for Standardized Tests

Once you have successfully completed the English courses, you will be ready to demonstrate your competencies through the standardized English language tests (TOEFL, IELTS, Duolingo) and to enroll in university programs taught in the English language.

“ After my studies at IIHEM, I was fully prepared to take on the Master's program at Virginia Commonwealth University on the same footing as the best of my American fellow students. ”

**Mohammed Moujahid**  
IIHEM, VCU Graduate, 2015
